### Social Skills Course For Teens aged 13-16

(Helping With Autism, Anxiety & General Social Skills Growth)

PEERS® For Teens & Young Adults is the world's foremost evidence-based course for teens and young adults with Autism and other social difficulties. It is a fun, high-impact, skills upgrade for your child.

PEERS® For Teens equips teens with a new range of skills for interacting with others. Your child will learn new skills to help support them through life's different social & emotional challenges.

What do students learn in PEERS® for Teens?

- Learn how to develop and maintain friendships.
- A toolkit of social skills that work in the real world and that are used by socially successful adults.
- Learn to tap into sources of potential friends with assistance from parents and other close role models.
- Create opportunities to learn social skills and to try them out in a safe and fun environment.
- Develop more independence in social relationships for the real world.
